

GERMAN COUNTER-ATTACK VIRTUALLY WIPED OUT IN ENGAGEMENT WITH YANKS

More Than Six Hundred Prisoners
and Sixty Machine Guns Items
in American Raid

AMERICAN PLANES FIGURE

French Advance is Marked on a Two
Mile Front Taking 220 Pris-
oners in Local Blow

HUNS REGAIN PART OF LOSS

Italians Begin New Offensive on
Piave in Vicinity of Recent
Brilliant Victories

More Than 600 Prisoners

With the American Army on the
Marne, July 3.—More than 600 pris-
oners and 60 machine guns have
been captured by the Americans in
the fighting west of Chateau-Thierry
during the last two days.

Nearly 100 additional prisoners
were taken by the Americans who
repulsed a counter attack against
their new position. Our artillery
laid down a terrific barrage that cut
off the attacking force while Amer-
ican machine guns and rifle fire an-
nihilated them.

The maximum advance Monday
night, it is shown, was nearly a
mile.

Washington, July 3.—Five hun-
dred prisoners annihilation of a Ger-
man regiment, and heavy capture of
military booty was the score of Amer-
ican forces near Chateau-Thierry.
General Pershing reported today.

The Americans, in capturing
Vaux, and other nearby positions,
advanced on a mile and a half front
to a depth of one thousand yards.
Heavy enemy counter attacks were
completely repulsed. American avi-
ators participated in the brilliant as-
sault and three failed to return.

New Offensive on Piave

London, July 3.—The Italians
have undertaken a new offensive ef-
fort on the lower Piave it was learned
today. Between the old and new
Piave, they advanced from two
thousand yards on an eight mile
front.

"At the head of the Sante Lorenzo
valley we withheld an enemy counter
attack and took 600 prisoners and
much materials," the war office re-
ported today. "On the Asiago pla-
teau a French surprise attack re-
sulted in prisoners being taken."

Cheers Americans Coming

With the Italians in the field,
July 3.—Formal announcement that
American troops will take their
place in the line was cheered by
Italian soldiers many of whom have
relatives in the American army.

The previous estimate of 1,500
Austrians killed in the recent moun-
tain fighting is now considerably in-
creased. It is known that two en-
emy regiments were entirely wiped
out all of their members being killed
or captured.

In hand to hand fighting an Aus-
trian colonel and his entire staff
were killed. From prisoners and
captured documents it was learned
that the support from the Austrian
artillery was very poor. The attack-
ing party numbered less than the
enemy prisoners captured.

British Retake Positions

With the British Army in France,
July 3.—As a result of the Germans
taking the ridge north west of Al-
bert last night the British are now
back along their old line established
when the enemy drive was stopped
last spring. The Germans considered
the British position menacing to
Albert Wood and determined to take
it at any price. This was the fourth

attempt made and the fourth British
success in this region Sunday night.

Austrians Cry For Bread

Geneva, July 3.—Several regiments
of Austro-Hungarian soldiers quar-
tered in Prague and Graz mutinied
when the bread ration was elimin-
ated.

The mutineers said they had mun-
itions enough to kill their officers
where upon the bread ration was re-
established and the revolt ended.

The spirit due to the food short-
age is spreading through the coun-
try even affecting the troops on the
Italian front.

85 in Casualty List

Washington, July 3.—The casual-
ty list of 85 today included: eighteen
killed in action, nine dead of wounds,
four of disease, six of accident and
other causes, twelve severely wound-
ed; thirty-six missing in action.

Albert Callender of Elkhart, Ind.,
was killed in action. M. Zbrowski of
East Chicago, Ind., is missing in ac-
tion.

Forty marine corps casualties
were: thirty-three killed in action;
four dead of wounds and three
wounded in action.

Paris, July 3.—Another German
counter attack on the new American
position at Vaux failed the French
war office announced today. In op-
eration between Ribcourt and Sois-
sons, the French advanced nearly
half a mile on a two-mile front, tak-
ing 220 prisoners.

London, July 3.—The Germans
last night recaptured most of the
ground won by the British northwest
of Albert on Sunday. Field Marshal
Haig reported today.

Amsterdam, July 3.—Germany
denied sinking of the Canadian hos-
pital ship Llandovery Castle, in a
semi-official statement issued in Ber-
lin today.

Amsterdam, July 3.—Forty-three
German air planes and three obser-
vation balloons were accounted for
Monday and Tuesday, according to
an official statement today. Eight
British planes are missing.

COUNTRY RESIDENCE TOTALLY DESTROYED

Home of Mr. and Mrs. Benton Red-
enbough in Orange Township
Levelled by Flames

THREE BUILDINGS ARE FIRED

The home of Mr. and Mrs. Volney
Benton Redenbough in Orange town-
ship was entirely destroyed by
flames yesterday afternoon and the
bulk of their house hold furnishings
lost as the result of a fire which re-
sulted from a defective flue.

The fire was first noticed burning
through the roof but at that time
had gained such a headway that it
was impossible to save the residence
or the meat and engine houses which
adjoined and which caught fire from
the flying sparks. The three build-
ings which were destroyed were con-
veniently arranged in a group and
were fully equipped the main build-
ing being two stories high while the
other two were one story construc-
tions.

Only a few pieces of the house
hold furnishings were saved and this
was done by neighbors who carried
the furniture from the burning
building. The loss is total as no in-
surance was carried neither on the
buildings nor on the furnishings.

VERDICT OF MANSLAUGHTER

Returned Against Gaston Farmer
Early This Afternoon

Muncie, Ind., July 3.—A verdict
of manslaughter was returned at
1:30 this afternoon in the case of
Derilus Trout of Gaston charged
with murder of his neighbor Charles
Millbolland by giving him strychnine
in a headache cure. The verdict
carries a sentence of from two to
twenty years.

Eleven jurors wanted to find him
guilty of either first or second de-
gree murder but was threatened with
disagreement of one juror.

Mr. and Mrs. George C. Powers
and children of Marion will arrive
tomorrow to spend the remainder of
the week in this city.

WORKERS HOPE TO REACH MARK TODAY

With War Savings Stamps Sales
\$350,000, Prospects Good For
Making Quota

TO REACH GOAL BEFORE 4TH

All Efforts of Canvassers Are in
That Direction—Future Sales
Are Large

Optimism reigned at the Rush
county War Savings pledge cam-
paign headquarters today as the in-
coming reports which are being tab-
ulated with accuracy and rapidity,
mounted to the \$350,000 mark and
showed signs of exceeding the coun-
ty's quota before the close of the
day.

Cleanup plans to end the drive by
oversubscribing the county's quota
were on foot today and in the vari-
ous parts of the county districts,
where the work had lagged to a cer-
tain extent during the initial days of
the campaign, workers were out in
full force in an attempt to get every-
thing closed up and all reports made
before Independence Day.

The amount of future sales is ex-
ceedingly large, according to the
tabulations made by Postmaster
Hunt. Each day brings in stacks of
cards from the rural routes, the re-
sults of which are expected to ad-
vance the county sales quota to a
considerable amount.

The tabulations of the monthly re-
ports on the stamp sales disclosed
the fact that during the month of
June the sales have amounted to
from three to five times the amount
of sales during the five preceding
months. This tabulation holds good
in every township with the exception
of Walker where the sales during the
last month have balanced with those
of the preceding months.

VETERINARIAN GETS CALL

Dr. Elliott Ordered to Report at
Camp Oglethorpe

Dr. H. O. Elliott, a local veteri-
narian who opened his office with Dr.
W. D. Leavitt in South Main street
several weeks ago, received a call
this morning to report at Camp
Oglethorpe within ten days where a
commission awaits him in the veter-
inary service of the United States
army. Dr. Elliott who came here
from Angola, Ind., has returned to
his home for a visit before entering
the service. Dr. W. D. Leavitt his
partner is already in the service,
stationed at Camp Lee.

48 BODIES RECOVERED

Syracuse, N. Y., July 3.—Forty-
eight bodies had been recovered to-
day from the ruins of the T. N. T.
plant at Splitrock, which was de-
stroyed by an explosion. More bodies
are believed in the ruins. More than
60 were injured and the property
loss will be near one million dollars.

EIGHTEEN LEFT IN CLASS 1

Local Board Reports On 1917 Regis-
trants, Deducting July Call

In response to a request from the
state conscription officer, the local
board today sent a report showing
that there would be eighteen regis-
trants left in class one, not counting
any of the 1918 class of registrants
after the July quota of forty is filled
during the five-day movement be-
ginning the twenty-second. Of the
eighteen remaining, eight are color-
ed men. Class one was increased by
one when Fletcher Bell, who was
reclassified and placed in one, pass-
ed the physical examination. Others
may be put in class one if the re-
commendations of the local board in
regard to some farm claims allowed
by the district board, are followed.

SAY AUTOMOBILES WILL BE MADE HERE

Representatives of Automotive Cor-
poration Declare Plant Will
be Located in City

REASONS FOR MOVING HERE

Assert Shipping Facilities And
Ability to Utilize Idle Building
Are Main Causes

The Automotive Corporation,
Louisville, Ky., manufacturers of
trucks, tractors and automobiles,
will manufacture pleasure cars in
Rushville.

This was the definite assurance
given by representatives of the com-
pany last night when it was announ-
ced that negotiations for the pur-
chase of the building in West Third
street formerly occupied by the
Modern Appliance company, had
practically been closed.

They gave as reason for their de-
cision to locate in Rushville, the
fact that they could not get con-
crete and other material for building
additions to their Louisville factory,
and the additional fact that an idle
building could be utilized here, where
the shipping facilities are especially
good due to the four railroads enter-
ing Rushville.

Representatives of the corpora-
tion said they would have office fur-
niture brought here from Louisville
at once and would maintain offices
in the room in Main street formerly
occupied by the Winship and Den-
ning shoe store.

The local plant will be devoted to
the manufacture of the pleasure
car, according to the statement
made last night, and the tractor and
truck factory will continue at Louis-
ville.

Representatives of the concern
declared that they had negotiated
with owners of lots adjoining the
site of the Modern Appliance com-
pany, but no leases on additional
ground have yet been taken.

This corporation claims to have a
tractor which is unique because it is
a one-man machine. The driver of
the tractor can operate it while sit-
ting on the vehicle which is being
drawn by the tractor, whether it be
a wagon or a farm implement which
requires some manipulation.

ED. JACKSON ASKS DIVORCE

Sues Cora Fields Jackson For De-
cree of Separation

Edward Jackson has filed suit for
divorce against Cora Fields Jack-
son, alleging her to be guilty of as-
sociating with other men. He sets
forth in the complaint that she is
abusive, extravagant and quarrel-
some and that she swore at him a
number of times. They were married
March 30, 1915 and separated June
29, 1918, according to the com-
plaint. They have a baby boy four
months old.

ALL BUT 16 OF 74 CLASSIFIED IN ONE

Unusually High Percentage of 1918
Registrants Are Found Sub-
ject to Call at Once

PROVES TO BE BIG SURPRISE

Seventeen of 58 Put in Class One
Claim Deferred Classes on Ac-
count of Agriculture

Out of the first seventy-four of
the 121 military registrants of the
class of 1918 classified by the local
army selection board, fifty-eight
have been placed in class one. This
is a much higher percentage than
the board expected because when
they registered, it was discovered
that many men becoming 21 years of
age in the last year were married.

However, seventeen of the seven-
ty-four placed in class one have
agricultural claims, which may re-
sult in the district board granting
them deferred classifications. Should
they be successful in their claims on
account of their work on the farms,
the percentage of class one men
would even then be much higher than
it was in the 1917 class of regis-
trants. Many farmers did not ask
deferred classes on account of their
occupation.

It is not likely that all agricul-
tural claims will be allowed, but if the
board uses the same policy as it did
with the other registrants, the per-
cent of such claims granted will be
large. There is a possibility, of
course, that the district board will
reverse the local board on some of
the local dependency rulings, but
the number will be small, if any, be-
cause the local board adhered
closely to the rules regarding de-
pendency, which are more clear than
they were when the class of 1917
was classified.

Five registrants were placed in
class two on dependency claims,
four of whom have agricultural
claims. Only eight were placed in
class four, and of that number two
claim deferred classifications on ac-
count of their farm work. Three
were given class five because they
are already in the service. The
classifications follow:

Class 1.

Schuneman, Henry, Carthage, R R 1.
Jeffries, Elmer B. Rushville, 1105 W.
Market.
McChug, Joseph W., Carthage.

STREETS WILL NOT BE OILED THIS YEAR

U. S. Department of Public Roads
Refuses to Approve the Order
For the Necessary Oil

LETTER IS READ TO COUNCIL

City Enters Into Agreement With
County To Install Public Drink-
ing Fountain at Once

There will be no streets oiled in
Rushville this year.

This is the edict of the United
States government, so the city coun-
cil was informed at its regular
meeting last night, when a letter to
the Indiana Good Roads Preserving
company, which had the contract
for oiling, was read. The letter set
forth that a permit for the neces-
sary oil would not be granted be-
cause the oiling of the streets of
Rushville was not deemed to be of
great enough importance, when the
needs of the army, navy and allied
war industries are considered.

The council voted to enter into an
agreement with the county to install
a public drinking fountain on the
west side of the public square. A
pump driven by an electric motor
will be hitched onto the driven well
which stands at the curb near the
west entrance to the court house.
The council at its last meeting ap-
propriated \$115 to pay half the
cost of the equipment and its in-
stallation, and the county was to
attend to the buying and installing.
The county agreed to pay for the
electricity if the city water and
light plant superintendent or his as-
sistants would keep the equipment in
pair. To this the city agreed and the
because the duties of the superin-
tendent are already heavy.

Last night P. A. Newhouse of the
county board met with the council
and said the county was willing to
go through with its part of the con-
tract and go a step farther—pay
half the expenses of all repairs
made, providing the city electricians
will keep the motor and pump in re-
pair. To this city agreed and the
equipment will be installed at once.

When there was some disposition
on the part of some councilmen to
turn down even the new proposition.
Councilman Mauzy said he did not
think the county was asking too
much of the city and that he be-
lieved the city should at least do
that much to provide a public drink-
ing fountain. Councilman Wagoner
declared the city had always been
too selfish with its water and that
not only the fountain should be in-
stalled, but also that water should
be turned into the drinking troughs
on the public square. It developed
after his remark that arrangements
have been made to supply water for
the drinking troughs.

Thomas Cauley, who has the con-
tract for the concrete alley between
Perkins and Main, running from
Fifth to Sixth, promised the coun-
cil last night he would begin work
in fifteen days. The work has been
delayed from time to time by re-
monstrators.

The city attorney was directed to
instruct the Capitol Lumber com-
pany not to obstruct West Market
street. It was reported to the coun-
cil that lumber sheds were being
built across the street.

About the time the city let the
contract for oiling the streets, the
federal office of public roads and
rural engineering announced that it
had entered into an agreement with
the United States fuel administra-
tion whereby road authorities de-
siring to construct, maintain or
reconstruct highways requiring coal
or oil products in maintenance or
repair, must have their applications
for these materials approved by
their state highway departments
and by a committee headed by L. W.
Page, director of the office of public
roads, which is an adjunct of the

JOHN C. O'NEILL, Manager

Insists That Frail, Nervous Women Can Speedily Become Strong and Vigorous

A Vigorous Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long for.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so keen-minded that they would compel the admiration of all their friends.

The vital health building elements that these despondent women lack are all plentifully supplied in Bio-feren. If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any drugist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started, your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Magnesium Peptonate; Ext. Nux Vomica; Fowd. Gentian; Phenolphthalein; Oleoresin Capsicum; Kolo.

Men and Women In Fighting Trim

They Keep to the Top
Notch of Health

The spirit of the times demands perfect health and nerves, and keeping them up to the highest degree of efficiency.

Wise men and women have learned that it does not pay to allow health or nerves to run down and are quick to take advantage of Nature's greatest red blood and nerve tonic, Phosphated Iron, the minute they feel they are slowing up.

Whatever your work may be there is no reason why it should continue to tire you; work should only use the right amount of your energy. It is trying to work on your nerves and forcing yourself that wastes your strength, runs you down, gives you appetite and indigestion, when you get up in the morning as tired as when you went to bed. There is no sense in anyone being a victim of ill health, poor blood, over work, nerve or the blues when Phosphated Iron will afford such prompt and permanent relief.

All over the country men and women in every walk of life lay their good health, strength and nerves of iron to the use of Phosphated Iron, the red blood and nerve builder, and it will also put you on your feet, make you feel like a live one. It produces results that last—that's what counts, no "if's" about it.

To insure physicians and their patients getting the genuine Phosphated Iron we have put in capsules only. Do not take pills or tablets. Insist on capsules.—PITMAN & WILSON and leading druggists everywhere. Rushville, Ind.—(Adv.)

Standing Back of the Government

Next to dishonor, war is the greatest calamity that can befall a nation. We are now beginning to realize how far-reaching its effects are. It is not too much to affirm that the war effects to some degree the condition of life for every man, woman and child in the country. From the loss of life itself the sacrifice runs all the way down the scale to a slight deprivation of comfort or luxury.

But for every widespread disaster there is usually a small modicum of good to place in the other side of the balance. It may not apparently make a hair's weight of difference against the ill, but it is there and perceptible if we look for it. What have we of good to set against the evils of war?

Our answer would be, Greater national unity. A year ago we were for the most part a country of individuals, individual communities, individual states. Men were pursuing their own objects, communities were not looking beyond their own improvements, states were caring for their own people.

Now all horizons are broadened. When a man sees his son or his neighbor's son going forth to war, his thought involuntarily goes out to the environment of that boy, the conditions he will meet, and the government which provides or regulates them. He realizes that the government will have to provide these boys with the simple necessities, food, clothing and shelter. It will also have to provide them with training, transportation, weapons, artillery and aircraft for their protection, medical services and hospitals for their care, and a hundred other essentials. And the man also begins to stand back of the government, to take his part in providing these absolutely necessary things in his own rightful proportions, either from his abundance or from his bare sufficiency.

And we need only to see the W. S. S. banners in the windows of homes throughout the land to understand how magnificently the individuals have risen to their duty and their opportunity. Everywhere in the homes of the rich and the homes of the poor alike the banners signal proudly:—"I have given as I can to the call of the nation. It is my nation and I am with it heart and soul in the hour of its need."

We cannot estimate the aggregate sacrifices which this splendid showing has required. In many cases it meant the giving up of comforts, perhaps of cherished plans. But each man who has subscribed for his bond or bonds feels that he is a component part of his country, that he stands or falls with it, and that it is a country worthy of his sacrifice. He is in harmony of feeling with his neighbor, his community, his state and his nation.

New Meat Program

The demand for beef for our Army, the armies of the Allies and their civil populations for this summer are beyond our present surplus. On the other hand, we have enough

War Hints — War Helps — War Duties

(Compiled and Condensed for the
the Indiana State Council of De-
fense by George Ade)

Remember, we are not saving wheat and sugar and beef products because we are stingy or hard-up, but because we are good sports who observe the rules in order to be loyal to our friends.

Better mark it on the wall somewhere: "My individual ration is 3 pounds of sugar per month and not to exceed six pounds of beef and such a small portion of wheat flour that there is no sense in trying to measure it."

The common barbaric lish, which produces wheat rust, and the newspaper printed in the German language, conducive to hybrid Americanism, are being dug up and removed from the landscape.

Beware of the "chain letter" scheme which pretends to be in partnership with the Red Cross but is not. Likewise, become deaf and dumb if a glib promoter tries to hand you some "get rich" stocks in exchange for your liberty bonds. The government up at Washington will be doing business when all the mushroom corporations have flickered and been forgotten.

To farmers who were hit by the frost the Committee on Food Production says: Be sure your corn is really put out of business before you start any replanting. Seed corn of the 90 day variety is available. It will produce good ensilage. A fair supply of buckwheat for seed has been found. It will cost about \$3.00 a bushel. You are still in time to raise bean crops or millet. Don't let an acre go to waste. Write T. A. Coleman at Purdue regarding seed.

One ton of garbage, if used as hog-feed, will produce 100 pounds of good, firm, first quality pork. Garbage is valuable. Keep it clean.

increased supply of pork this summer to permit economical expansion in its use. It will therefore be a direct service to our Armies and the Allies if our people will in some degree substitute fresh pork, bacon, ham, and sausage for beef products.

The Food Administration requests all hotels and restaurants not to place on their menus or serve boiled beef more than two meals weekly, beefsteak more than one meal weekly, and roast beef more than one meal weekly. It asks householders not under any circumstances to buy more than 1½ pounds of clear beef weekly, or 1½ pounds, including the bone, per person in the household.

The public will realize that the changing conditions of production from season to season, the changing situation in shipping, and, therefore, of the markets available to the Allies, and the increasing demand for our growing Army, with the fluctuating supply of local beef in France, all make it impossible to determine policies for a long period in advance. The Food Administration has recently asked for economy in all meat consumption: now it emphasizes further reduction of beef by the substitution of pork. It is anticipated that this program will hold good until September 15, and the Food Administration most earnestly requests co-operation of the public.

The German generals have often set dates when they will dine in Paris. But it is not reported that the Paris restaurants are laying in any supplies of sausages or sauerkraut.

Between the requirements of more wheat for the allies and more money to support the army Uncle Sam must continue to tighten his belt and loosen the straps of his pocketbook.

The American brand of courage has a strong infusion of gaiety. Witness our boys who advanced to battle at Vimpy with their helmets bedecked with poppies.

If you cannot get your favorite brand of tobacco, just think how those war-worn boys in the trenches are enjoying its flavor.

The woman who can can and will can is helping to win the war.

Barrage

"Gott Mit Uns"

By CHARLES B. DRISCOLL
"Our German God is on our side," Says Bloody Bill of Prussia,
"Forth with my soldiers he doth ride,
Through Finland and through Russia!"

"He's with our guns when they destroy"

A church on Corpus Christi:
His heart is filled with pride and joy
By gas clouds, green and misty!

"Twas He who taught us how to throw"

Big bombs at sleeping babies:
Our German God is strong, you know,
And deals in force, not maybes!"

Yet we who learned at Mother's knee
Of Christ, the gentle brother,
Can't understand how this can be
The God we knew through Mother.

No, no, there must be some mistake,
Or Bloody Bill is lying:
God couldn't make the world's heart ache

With little children's crying!

Kaiser bill says it must be a
"strong German peace." You know
what "strong" means to a people
that thinks limburger cheese is mild.

The people of Cologne are getting panicky because their city has been bombed a few times. When a few of their choicest rathskellers and beer gardens are blown to bits they'll know how Parisians dislike having their worship interrupted by big shells.

Don't disappoint some friendly hog that is waiting for it.

If you are a relative or close friend of some boy at the front, don't take it for granted that other people are writing him all the letters he wants to receive. Try to imagine how blue he will feel if he has reason to suspect that the people back home are losing interest in him. Write to him often and make your letters cheerful.

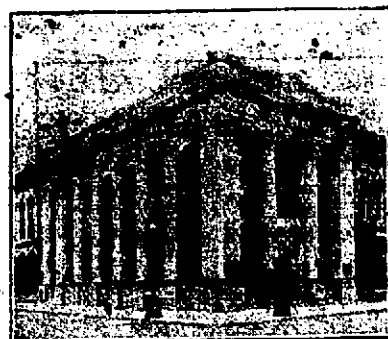

Acting on definite instruction from Washington the State Council advises against building operations and other enterprise scaling for the employment of men, money and material, unless such projects will contribute to the winning of the war. Personal comfort and private convenience do not stack very high these days.

The War savings "drive" may have ended but the purchase of the little Thrift stamps and the licking of them and the filling up of the cards must go ahead every day in the week.

Hints to threshers: Avoid threshing when the grain is tough. Reduce loss by shattering in bundle wagons. Keep separator cylinders up to speed and adjust blower. Keep teeth adjusted and sharp. Feed carefully. Look out for leakage around separator. Clean up thoroughly at end of job. Don't scatter grain in scooping. See that the wagon boxes are really grain tight. Don't leave down grain or loose grain in the field. Bring in the extra bushels which will help to put the Kaiser out of business.

The "fight or work" order by General Crowder is now in effect. Any registrant who is merely fighting against work will not be classified as a fighter.

War is dreadful but some of the by-products are pleasant to contemplate. A laudable spirit of co-operation is at work in every Indiana county. The man who can't shoot a gun or sail a ship or grow a carload of grain, is trying to step in and help the fellow who stands a little closer to the important war duties. Retired farmers and town residents who haven't walked in the stubble for years, are volunteering to go out and help harvest the food crops. The town women are willing to stop knitting long enough to give a lift to the farmer's wife during the rush days when she has extra hands and "thrashers" to feed. We seem to be reviving the Hoosier friendliness of long ago—the fine neighborly feeling of pioneer days, with its quilting parties and husking bees and barn-raising. Go to it, good people, and the more you do to help the man who is helping to win the war, the more peaceful will be your slumbers each night.

What Is a War Savings Certificate?

A War Savings Certificate is better than dollar bills. No matter how long you keep dollar bills in your pocket, they are worth their original value only. But a War Savings Certificate INCREASES in Dollar Value.

When the Certificate is filed you have 20 War Stamps, bought at your convenience, for a total now of \$83.60. At the end of five years the Government redeems each full certificate for exactly \$100.00.

You obtain over \$16.00 interest for lending your money. You do not miss the money you subscribe, for you loan it at odd times to suit your convenience. Could anything be fairer? Especially when every dollar you lend helps shorten the War.

We offer you every facility for the purchase of War Savings Certificates and every class of War Loan Investment.

BARBER SHOPS TO CLOSE

All union barber shops will be
closed all day Thursday, July 4th.

Mr. and Mrs. Wilbur Warner gave a picnic Sunday honoring the seventeenth birthday of their daughter Gladys. A splendid picnic dinner was served to forty guests, along the banks of White River, south of Laurel, where the party motored for the picnic. Among the guests were Mr. and Mrs. Bert Whitman of Connersville, Mr. and Mrs. Roseann Benning, Mr. and Mrs. Clifford Benning, Mrs. Lena Linville, Mr. and Mrs. Clyde Yader and sister of St. Paul, Mr. and Mrs. Fletcher Reed and daughter Gleta of Edmouthe, Harry Allender of near Laurel, Mr. and Mrs. Walter Duke, Mr. and Mrs. Jess Scott, Mr. and Mrs. Noah Tryon, Mr. and Mrs. William Foster and Mr. and Mrs. Ollie Brown, all of Rushville, Mr. and Mrs. John Bennings, Mr. and Mrs. Chester Hall and son Wayne and Howard Warner.

Thirty-five members of the W. R. C. Penny social and one guest Mrs. William Rodabaugh, were entertained yesterday afternoon at the home of Mrs. William Trennepohl in Buena Vista avenue. The hostess was assisted by Mrs. Fanny Ridenbaugh, Mrs. Mary Sampson, Mrs. Margaret Brown and Mrs. George Smith. During the business session, the members voted to buy several thrift stamps and one war savings stamp, and decided to have a slumber robe knitted which they will sell for benefit of their numerous war activities. Final arrangements were made for the all day picnic which will be held tomorrow at the country home of Mrs. Will Morgan east of the city. Members of the D. A. R. and the W. R. C. will go out on the ten o'clock car and get off at the fair grounds.

The Modern Woodman hall was attractively arranged last night for the informal midsummer dance which was attended by more than sixty couples. A patriotic color scheme was carried out in strands of red, white and blue crepe paper which was arranged in an attractive design from the center chandelier to the four corners of the room. A soft glow was distributed through the room by the shaded lights and the music which was furnished by an out-of-town orchestra was composed of an excellent varied program. Guests from Shelbyville, Greensburg, Connersville, Newcastles, Columbus and Indianapolis were entertained.

Mrs. Charles Cortelyou of Connersville was the guest of honor at a surprise dinner given by a party of her friends Sunday, the occasion being her birthday. Covers were laid for twenty-five guests, when the table in the dining room was beautifully centered with a bouquet of pink roses and ferns.

Miss Marian Scholl, who has been attending DePauw university at Greencastle, will arrive tonight to spend the summer vacation with her parents, Prof. and Mrs. J. H. Scholl of North Jackson street. Miss Scholl will be accompanied home by Miss Elizabeth Bliss of Crawfordsville, who will be her guest for a few days.

The Misses Kathryn Guffin, Marjorie Thomas, Helen Frazee and Esther Anderson and Harry Schmalzel, John K. Tompkins, Alfred Norris and Cyril Caron will form a party which will picnic near Carthage tomorrow.

The Misses Marie Clark, Dorothy Sparks and Kathryn Wyatt and Clifford Stevens, Howard Stiers and William Kelso will motor to New Trenton, Franklin county, for a Fourth of July picnic.

The members of the Tuesday Bridge club were delightfully entertained by Mrs. Vern Norris yesterday afternoon at her home in West Third street. Guests for two tables at Bridge spent a very pleasant afternoon.

Guests for three tables of Five Hundred were entertained by Mrs. Leta Carter, last night at her home in North Morgan street. Among the guests were the members of the Tuesday Five Hundred club.

At the meeting of the Psi Iota Xi sorority which was held last night at the home of Miss Phyllis Dean in North Main street, plans were made for the raising of the chapter fund for War Relief work which the sorority will take up in full force during the coming winter. A resolution was adopted whereby each member of the sorority is to devote one afternoon each week to Red Cross work at the headquarters.

Certificates To Be Signed For Canning Sugar

It is Believed Abuses Have Crept in Because of Blanket Privilege Granted Housewives to Accumulate up to 25 Pounds. Notices Sent to County Food Administrators.

Housewives of Indiana must secure and sign certificates for their canning and preserving sugar. No unrestricted sales, except for household consumption rationed 3 pounds per person per month, will be permitted by Dr. Harry E. Barnard, federal food administrator for Indiana.

Dr. Barnard, who has just returned from a conference of regional food administrators at Chicago, said similar action will be taken in every state. It is believed abuses have been permitted to creep in, in many places, because of the blanket privilege granted housewives to accumulate up to 25 pounds of sugar at a time, for canning and preserving purposes. Now no sales in excess of 2 pounds for city customers and 5 pounds for country customers, as often as their family allotment justifies, keeping within the ration, will be without certificates.

Notices have been sent to the county food administrators to recall from retailers all the cards upon which a record of sales of unusual amounts of sugar, presumably for canning and preserving, had been kept for filing in the office of the

state sugar distributor, J. E. Langer. These cards are to be replaced with appropriate certificates, upon which the housewife must state whether she has any sugar on hand, whether she has bought any for the purpose of canning and preserving, and if so, whether she has so used it. The card then must have an O. K. from the food administrator or a deputy before the sale is made.

Local grocers have been instructed to sell no more sugar for canning purposes, by Dr. F. M. Sparks, deputy food administrator for Rushville. He has received no certificates in accordance with the new ruling, however.

The retailers will be held responsible for the effectiveness and enforcement of the plan, Dr. Barnard says. Failure to conform with the regulation will eliminate the retailer

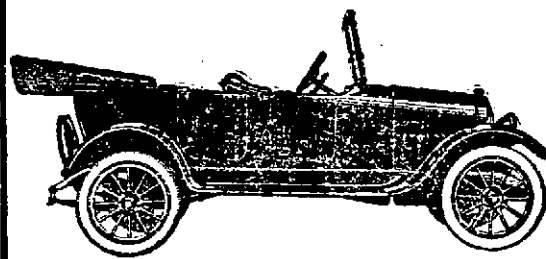

automatically as a distributor of sugar, for the period of the war.

Dr. Barnard explains that the necessity of still further conservation of the sugar supply is a result of the continued withdrawal of tonnage from the sugar trade, between the United States, Cuba, Porto Rico and Hawaii.

DONATIONS FOR YARN FUND

The members of the Rush county War Mother's club have announced that they are ready to receive donations for their yarn fund. The sweater which is to be awarded soon, is displayed in the window of the Humes-Buell shop, and the proceeds of the drive for donations will be used for purchasing yarn to be knitted into articles for the Rush county boys in service.

That's easy to answer—you want everything that the ingenuity of man has invented; that science could develop, and an American, accustomed to the best, desire.

You want comfort to the point of luxury in riding qualities.

You demand a car that in outward appearance is one you and your family can be proud to be seen in.

You insist on artistic lines in a body that is in accord with the prevailing fashions. Upholstery that feels as easy as it looks—that is as durable as the best.

And withal a finish in details and in the ensemble that looks the part your car is to play in your daily life.

Speed, you desire, equal to any occasion and power equal to any emergency.

All these you may obtain in a motor car and at a price well within your reach—if you but select right.

There's the rub—how to decide, between those who claim everything, which car will fulfill the claims.

For makers are not over-modest. There's no patent on adjectives nor restriction on the use of words.

Every maker claims everything. How is one to decide?

After all, it isn't so difficult. Just observe one rule—accept no claim that hasn't been proven.

You can see and test for yourself most of the qualities you desire in a motor car. You can compare body lines. You can feel the upholstery. You can determine the quality of finish.

By riding in it you can verify or disprove all claims as to spring suspension, balance and riding qualities.

If you know how to drive any car you can drive it yourself and thereby test the handling and control—steering gear, shift, clutch, brakes, etc.—and responsiveness of motor.

All these are an open book to the man who will read and can interpret.

So after all, you need only accept the word of the salesman for—well, for the most important facts.

These are, the reliability of the car and its gasoline consumption.

And there's where the claims come in—for makers being human, and business being competitive, there is a tendency to claim reliability unlimited—and fuel economy to the vanishing point.

Since this is so, what is the formula for accurate selection of a motor car? Proofs—that is the only certain way.

"Claims are all right, but only proofs count"—that is the Maxwell slogan.

Believing that every claim should be susceptible of incontrovertible proof—and believing it to be good business to claim only what we can prove—

We have proven in official test, and before the whole world, those two most elusive but most important qualities—reliability and gasoline economy.

In 44 days and nights running, during which the motor never stopped—the car every minute under the supervision of A. A. A. Officials—the Maxwell proved its wonderful reliability.

That still stands the world's record for reliability—the Official Record.

In that same non-stop test, a standard, stock-model Maxwell covered 22,022 miles at an average speed of 25 miles per hour.

That also is the Official World's long distance record.

Again: The Maxwell Motor Company offered \$50,000 in Liberty Bonds to Maxwell owners all over the American Continent—Canada, the U. S. and Mexico—for an economy contest.

More than 3000 Maxwell owners entered—and the average of all those Maxwells was 29.4 miles per gallon of gasoline. (That was for a U. S. standard gallon. Add 20 per cent mileage and you have 35.3 for a Canadian "Imperial Gallon.")

That also stands a world's record for gasoline economy.

And remember, it wasn't the performance of one especially adjusted car, but an average made by more than 3000 Maxwells—1915, 16 and 17 models.

Nor were they driven by factory employees or dealers—the rules specified that only actual owners or members of their families could compete.

So there's one car, in the selection of which you can be sure—absolutely sure.

For what you cannot yourself see and examine and test, has been proven beyond question.

You are invited to see and to ride in and to drive yourself, a Maxwell.

And, having done that—having seen and tested all that can be confirmed in a short time—the official figures of those long-time, long-distance, reliability and economy tests are also available to you.

Then, if you are willing to accept mere verbal assertions in the selection of your car—that is your privilege, of course.

But if you want a car that in official test has proven every claim made for it—that car must be a Maxwell.

CAN FOOD AND PRESERVE THE NATION

CAN FRUITS FROM SUMMER'S PLENTY FOR YOUR MEALS NEXT WINTER

Who Can? Everybody!

Can! Summer investment of time and money, small; winter returns in food and health, large. Rubber rings! You'll need to use good ones. Let empty cans and jars wait for fruit. Don't try to make fruit wait long for containers.

Those luscious berries, peaches, cherries, figs, and other fruits, so abundant this summer, can be made to supply many desirable desserts for winter, and with little trouble. Practically all fruits can be canned at home in ordinary canners or in a large vessel with tightly fitting cover. In fact, fruits are easier to can than most vegetables. They are prepared more quickly and need to be boiled in the jars only once and generally for a shorter time than is necessary to can other products.

Canned fruits preserve most of the delicate flavors and succulence of fresh fruits and are the nearest substitute for fruits fresh from bush or tree. They are very valuable in the winter diet. They supply acids and mineral substances very useful in keeping the body in condition.

Do not cook or handle fruits in galvanized vessels. The fruit acid attacks the zinc coating and makes the product dangerous to health and spoils its color and flavor.

Fruits Can Be Canned without Sugar

Don't let cost or difficulty in obtaining sugar deter you from canning quantities of fruit this year. Fruit can be canned without sugar. Instead of using sirup, simply fill the cans with clean hot water and process in a water bath. The fruit will not spoil, but, of course, will not have the fine color and flavor which it would have if packed in sirup. The use of even a thin sirup in canning fruits will give a more attractive finished product than can possibly be obtained by canning in water. If sugar is not available, it will be well to consider drying the fruits instead of canning, since a good dried product is far better than a poor canned one. The importance of canning in less water should be stressed this year because of the high cost of containers. Fruits canned without sugar or with the addition of a very small amount of sugar may be used for pie fillings, desserts and in other ways.

Fruits for home use, can be canned

with corn sirup or refiners' sirup in place of part of the sugar ordinarily used. Sirups with a distinctive flavor or add sweetness, but also, of course change the flavor of canned fruit. A little experimenting in handling fruits should enable a housewife to develop various combinations of fruits and sirups which are pleasing to her own family.

Caution: Fruits canned with plain water or with other than sugar sirup should not be sold until the jars have been labeled to comply with local and federal requirements as to description of contents.

How To Can Fruit

Boil empty jars and lids for at least fifteen minutes before you fill them with the fruit. Rubber rings just before being put on the jars should be cleansed by dipping for a minute into a quart of boiling water in which a teaspoonful of cooking soda has been dissolved. Take the jars out of the water bath, drain quickly and fill, while still hot, with the fruit prepared as described below. Fill the jar with hot sirup or hot water. Put on the lid but do not seal absolutely tight, so as to allow for expansion inside the jar.

Put the partially sealed jars, while

still hot, into a hot water canner provided with a false bottom of slats or wire mesh. Do not put cold jars into hot water—or boiling water into cold jars—they'll crack. Boil (process) the filled jars for the time specified in the recipes, counting from when the water in the canner begins to boil again. Remove jars; seal airtight; when cold test for leaks and store in a dark, cool, dry place.

Every empty preserving jar indicates a bare spot in some household's patriotism.

Some may think that home canning is hot work—how could they describe work in the trenches?

Some Neighbor Can Use Them

Some neighbor surely can eat or put up the surplus products from your place.

A quart of canned peaches or tomatoes on the shelf is worth a bushel rotting on the ground.

See that your pantry shelves sag just a little this year.

Weeding will seem easy next winter when Mother serves those home-canned string beans.

Mr. and Mrs. John Logan and Mr. and Mrs. Lowell Vickrey were the

U.S. DEPT. OF AGRICULTURE

HOW TO CAN

Cherries

Cherries when canned whole should be blanched by dipping into boiling water for 15 seconds, which prevents splitting. For sour cherries use a sirup made by boiling and straining 5 pounds and 8 ounces of sugar to 1 gallon of water. For sweet cherries, use a sirup made of 3 pounds and 9 ounces of sugar to 1 gallon of water. Pack in previously boiled jars. Honey or other sirups can be used instead of sugar sirup. Partially seal jars. Boil (process) quart-size jars in water bath for 25 minutes. Seal airtight, and when cold test for leaks. Store in cool, dark, dry place.—U. S. Department of Agriculture.

guests of Mr. and Mrs. Linea Hays and daughter Iva Sunday.

Miss Helen Murphy visited relatives near Orange last week.

The Misses Mary Custer and Doris Walker visited Miss Lucille Priest of near Milroy Saturday night and Sunday.

Miss Mildred Vandament of near Milroy is visiting her parents, Mr. and Mrs. Joseph Vandament.

Mr. and Mrs. Morton Hinckman and son Bethel, Mr. and Mrs. Garney Hinckman and family and Irvin Walker were Sunday guests of Mr. and Mrs. George Meyer and Mr. and Mrs. Charlie Meyer.

Miss Nora Hall of Indianapolis is visiting her parents, Mr. and Mrs. John Hall, for a few days.

Miss Ellen Lower returned to her home Saturday after visiting Mr. and Mrs. John Logan for two weeks.

Mr. and Mrs. Homer Hall and son Walter visited Mrs. John Gordon and son Clyde Sunday.

Mrs. James H. Hays and Mrs. Ross Logan are improving slowly from recent illnesses.

—Prof. J. S. Wiley of Anderson took dinner with Mr. and Mrs. Will Whitton and family Sunday.

Lafayette, Ind., July 3.—The campaign to procure erection of 10,000 silos in Indiana has been successful and will be brought to a close shortly. According to reports reaching Purdue university today more than the desired number will be built on Indiana farms this year.

BOARD REPORTS 5 1917 DELINQUENTS

Local Army Board Gets Request for Complete List of Registrants Failing to Report

EIGHT PREVIOUSLY REPORTED

The local army selection board has received a request from the state conscription officer, Major Baltzell, for a complete list of delinquents of the 1917 class of registrants and the board has reported five men who either failed to file their questionnaires or to report for physical examination. The report must be in the hands of the state officer by tomorrow.

Last February, in reply to the same request, the board reported 8 delinquents, but since that time three have reported. Dora Beckner, one of these, was sent to camp from Kentucky June 2, according to word received by the board today. The other two who have reported since the last list sent are James Burrell of Jeffersonville and Sam McCullough of Carthage, both colored who were then delinquent on their physical examinations. They are both awaiting a call.

The other five delinquents who

FLAG WITH EIGHT STARS IS DEDICATED

Patriotic Service Under Auspices of Epworth League Held at Pleasant Ridge Church

E. B. THOMAS MAKES ADDRESS

The Pleasant Ridge Methodist church was packed last night for the patriotic meeting which was held in connection with the service flag dedication under the auspices of the Epworth League organization of the church.

The address of the evening was delivered by E. B. Thomas of this city and as district chairman of the Red Cross organization, his address on the relief work of the society was one of unusual interest and most appropriate for the occasion. A varied musical program was given as a prelude to the affair, and Miss Louise Pitman of this city gave a reading. The service flag which was

have never filed their questionnaires are, the place of residence being the place they registered: Frank D. Seegars of Mays, Adam Grisko of Carthage, Houston Pottel colored, of Jeffersonville, and Charles W. Levi of this city.

SAMUEL TRABUE WILL REPRESENT DISTRICT

Is Chosen District Member of State Democratic Executive Committee at Richmond Meet

GOOD ATTENDANCE FROM RUSH

Samuel L. Trabue was named the Sixth district member of the state executive democratic committee at the meeting of the Sixth district officials which was held in Richmond yesterday afternoon and evening.

Fred VanNuys, chairman of the state committee, presided and for the first time took the committee and the nominees "direct from the people" in order that they might become acquainted prior to the campaign. The conference was attended by all of the nominees on the state ticket with good representations from all of the districts in the state.

Gates Ketchum, secretary of the Rush county committee, Knowles Casady, J. T. Arbuckle and S. L. Trabue of this city represented the county at the meet.

lowered at the opening of the service contains eight stars for the boys of the church who have entered military service.

What would life be without loyalty?

Loyalty is the finest fibre in the human breast—it awards alike the humble and the great—makes the small man big and the big man bigger.

Take loyalty from the heart of a saint and you have the likeness of a devil.

The greatest thing in life is man's loyalty to man. Your loyalty and our loyalty is being tested every day.

A loyal citizen as well as a loyal merchant co-operates with their government.

We can show our loyalty to you by cleaning and pressing your wearing apparel. Money saved in this manner can be invested in W. S. S.

Our plant is now busy with summer clothes and reblocking straw hats. Why not let us serve you?
